WSC -100
Water Sensing Cable

Product Description

- Detects the Presence of Liquid at any point along its length

- Able to detect Water, Mild Acid or Mild Alkaline

- Installed with Liquid Leakage Alarm System, the cable senses liquid leakage and triggers an alarm

- Small, Lightweight and Flexible, allowing Easy Installation

Technical Specifications

	Description	Color
A	Outer Jacket Material: Electric Polyethylene, 30 AWG Alloy Wire	Black
B	Outer Jacket Material: Polyethylene, 26 AWG Copper Wire	Yellow
C	Outer Jacket Material: Electric Polyethylene, 30 AWG Alloy Wire	Black
D	Outer Jacket Material: Polyethylene, 26 AWG Copper Wire	White
E	Polyethylene	Blue
F	Outer Jacket Material: Polyethylene, 18 AWG 7/26 Steel Wire	Blue

- Tensile Strength: 30kg

- Weight: 29g/m

- Insulation Impedance: $\geqq 7M\ \Omega$, DC 100V

- Wire Impedance: Copper wire 0.18 $\Omega/m \pm 10\%$
  Alloy wire 13.0 $\Omega/m \pm 10\%$

- Working Conditions: Temperature $-20°C \sim 60°C$
  Humidity 5% ~ 95% (Non -condensing)

- Certifications:
  EMC 61000 -6-3:2007
  EMC 61000 -6-1:2007
